## Description

The 159 Series product is a metal fuse clip with preinstalled Littelfuse 461 Series TeleLink ${ }^{\circledR}$ fuse. This fuse and clip combination can be automatically installed in PC Boards in one efficient manufacturing operation. It permits quick and easy fuse replacement without exposing the PC Board and other components to risks of rework solder heat as required with direct surface mount fuses.

It meets UL 60950 power cross requirements and is designed to allow compliance with Telcordia GR-1089CORE and TIA-968-A Surge Specifications. The product provides coordinated protection with Littelfuse SIDACtor ${ }^{\circledR}$ protection thyristors without series resistors.

## Features

- Offers low profile easily-replaceable fuse alternative compatible with automated PCB surface mount equipment
- Comes supplied with surge resistant Littelfuse 461 series TeleLink ${ }^{\circledR}$ time-lag Slo-Blo ${ }^{\circledR}$ fuse

$I^{2} t$ is calculated at 10 msec or less. $1^{2} t$ at 10 times rated current has a typical value of: 24
$A^{2} \sec (2.0 A), 22 A^{2} \sec (1.25 A), 1.3 A^{2} \sec (0.5 A)$.

- Typical inductance < 40nH up to 500 Mhz
- Resistance changes $0.5 \%$ for every ${ }^{\circ} \mathrm{C}$.

Resistance is measured at $10 \%$ rated current

Note:

1. Derating depicted in this curve is in addition to the standard derating of $25 \%$ for continuous operation

## TIA-968-A (formerly FCC part 68) Surge Waveforms

(fuse can not open during type B events)

| Surge | Voltage (V) | Waveform ( $\mu$ s) | Current (A) | Repititions | Recommended Fuse |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Metallic A | 800 | $10 \times 560$ | 100 | 1 ea. polarity | 1.25 |
| Longitudinal A | 1500 | $10 \times 160$ | 200 | 1 ea. polarity | 1.25 |
| Metallic B | 1000 | $9 \times 720$ | 25 | 1 ea. polarity | 1.25 |
| Longitudinal B | 1500 | $9 \times 720$ | 37.5 | 1 ea. polarity | 1.25 |

For the type A events the 0.5 fuse will open, providing non-operational compliance. The $1.25 \& 2.0$ will
not open, providing for operational compliance with TIA-968-A type A surge events.
